

**CENTRAL MONTANA MEDICAL CENTER  
POSITION DESCRIPTION**

<b>Position Title</b>	RN Infusion Therapy	<b>Grade</b>	
-----------------------	---------------------	--------------	--

<b>Department</b>	Radiology and Nursing	<b>Exempt</b>	
<b>Immediate Supervisor</b>	ER MANAGER	<b>Non-exempt</b>	
<b>Supervisor next in line</b>	CCO	<b>Workweek</b>	

**POSITION SUMMARY**

RN will specialize in giving medicine and fluids to patients via injection. Will be evaluating patients in need of intravenous treatment or medication including: care planning, implementing treatments and documenting nursing care. Will assess the patient's health and nursing needs, as well as, detect changes in symptoms, health or pain and will need to determine when and initiate appropriate intervention as necessary according to CMMC's policies and procedure guidelines. Will be educating patients and their families about the disease process, medications, and treatment plans. Will ensure that appropriate pre-infusion protocols are followed. Coordinates with physicians inside and outside of CMMC. Coordinates follow up or continuing treatment schedules with the patient and physician. When infusion schedule is clear, will be a second RN in the ER as patient census demands with duties as assigned by the house supervisor. Will conduct some QA studies and attend departmental meetings.
